Third Quarter of 2019 Financial Results

Net revenues

Total net revenues were RMB4,451.6 million (US\$622.8 million) in the third quarter of 2019, an increase of 22% from RMB3,647.6 million in the third quarter of 2018.

Live video service revenues were RMB3,275.4 million (US\$458.2 million) in the third quarter of 2019, an increase of 18% from RMB2,769.2 million during the same period of 2018, as a result of the successful strategy to apply different products and operational efforts to drive spending from different cohorts of users.

Value-added service revenues mainly include virtual gift revenues and membership subscription revenues. Total value-added service revenues were RMB1,064.6 million (US\$148.9 million) in the third quarter of 2019, an increase of 86% from RMB573.1 million during the same period of 2018. The year-over-year increase was primarily attributable to the continued growth of the virtual gift business on the Momo application driven by more functions launched and more paying scenarios introduced to enhance the social experience of Momo users, and to a lesser extent, the increase in the membership subscription revenues of Tantan.

Mobile marketing revenues were RMB81.9 million (US\$11.5 million) in the third quarter of 2019, a decrease of 30% from RMB117.3 million during the same period of 2018. The decrease in mobile marketing revenues was primarily caused by the decreased demand from our advertising and marketing customers and the decrease in advertisement properties on Momo’s platform.

Mobile games revenues were RMB15.8 million (US\$2.2 million) in the third quarter of 2019, a decrease of 43% from RMB27.9 million in the third quarter of 2018. The decrease in mobile game revenues was mainly due to the continued decrease in quarterly paying users of mobile games.

Revenues from other services in the third quarter of 2018 mainly consisted of revenues from Phanta City, a TV variety showco-produced by the Company, which did not generate revenues in the third quarter of 2019.

Net revenues from Momo segment increased from RMB3,325.1 million in the third quarter of 2018 to RMB4,138.9 million (US\$579.1 million) in the third quarter of 2019, primarily driven by the significant increase in net revenues from live video service and value-added service. Net revenues from Tantan segment increased from RMB164.1 million in the third quarter of 2018 to RMB310.0 million (US\$43.4million) in the third quarter of 2019, which was mainly due to the increase in the number of paying users of Tantan.

Cost and expenses

Cost and expenses were RMB3,487.9 million (US\$488.0 million) in the third quarter of 2019, an increase of 16% from RMB3,009.1 million in the third quarter of 2018. The increase was primarily attributable to: (a) an increase in revenue sharing with broadcasters related to our live video service and virtual gift recipients; (b) an increase in marketing and promotional expenses to attract users on both Momo and Tantan platforms and promote our live video services; (c) an increase in personnel related costs as a result of the Company’s rapidly expanding talent pool; (d) an increase in infrastructure-related spending, such as bandwidth costs and server depreciation costs, driven by more functions introduced on Momo’s platform. The increase was partially offset by a decrease in production cost in connection with a television program.

Non-GAAP cost and expenses (note 1) were RMB3,284.0 million (US\$459.5 million) in the third quarter of 2019, an increase of 17% from RMB2,801.6 million during the same period of 2018.

Income from operations

Income from operations was RMB993.1 million (US\$138.9 million) in the third quarter of 2019, compared to RMB643.8 million during the same period of 2018. Income from operations of Momo segment was RMB1,227.2 million (US\$171.7 million) in the third quarter of 2019, increasing from RMB943.9 million in the third quarter of 2018. Loss from operations of Tantan segment was RMB228.7 million (US\$32.0 million) in the third quarter of 2019, compared to loss from operations of RMB227.6 million in the third quarter of 2018.

Non-GAAP income from operations (note 1) was RMB1,196.9 million (US\$167.5 million) in the third quarter of 2019, compared to RMB851.3 million during the same period of 2018. Non-GAAP income from operations of Momo segment was RMB1,364.1 million (US\$190.9 million) in the third quarter of 2019, increasing from RMB1,055.9 million in the third quarter of 2018. Non-GAAP loss from operations of Tantan segment was RMB164.4 million (US\$23.0 million) in the third quarter of 2019, compared to non-GAAP loss from operations of RMB132.2 million in the third quarter of 2018.

Income tax expenses

Income tax expenses were RMB182.6 million (US\$25.5 million) in the third quarter of 2019, increasing from RMB146.8 million in the third quarter of 2018. The increase was mainly because we generated higher profit in the third quarter of 2019.

Non-GAAP net loss of Tantan segment was RMB159.5 million (US\$22.3 million) in the third quarter of 2019, compared to non-GAAP net loss of RMB132.0 million in the third quarter of 2018.

Note 1: Non-GAAP measures

To supplement our consolidated financial statements presented in accordance with U.S. generally accepted accounting principles (“GAAP”), we use various non-GAAP financial measures that are adjusted from the most comparable GAAP results to exclude share-based compensation and amortization of intangible assets from business acquisitions, and tax impacts related to the amortization of intangible assets from business acquisitions.

Reconciliations of our non-GAAP financial measures to our U.S. GAAP financial measures are shown in tables at the end of this earnings release, which provide more details about the non-GAAP financial measures.

Our non-GAAP financial information is provided as additional information to help investors compare business trends among different reporting periods on a consistent basis and to enhance investors’ overall understanding of the historical and current financial performance of our continuing operations and our prospects for the future. Our non-GAAP financial information should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to the GAAP results. In addition, our calculation of the non-GAAP financial measures may be different from the calculation used by other companies, and therefore comparability may be limited.

Our non-GAAP information (including non-GAAP cost and operating expenses, income (loss) from operations, net income (loss), net income attributable to Momo Inc., and diluted net income per ADS) is adjusted from the most comparable GAAP results to exclude share-based compensation, amortization of intangible assets from business acquisitions, and tax impacts related to the amortization of intangible assets from business acquisitions. A limitation of using these non-GAAP financial measures is that share-based compensation, amortization of intangible assets from business acquisitions and tax impacts related to the amortization of intangible assets from business acquisitions have been and will continue to be for the foreseeable future a significant recurring expense in our results of operations. We compensate for these limitations by providing reconciliations of our non-GAAP measures to our U.S. GAAP measures. Please see the reconciliation tables at the end of this earnings release.
