Second Quarter of 2019 Financial Results

Net revenues

Total net revenues were RMB4,152.6 million (US\$604.9 million) in the second quarter of 2019, an increase of 32% from RMB3,152.5 million in the second quarter of 2018.

Live video service revenues were RMB3,099.9 million (US\$451.5 million) in the second quarter of 2019, an increase of 18% from RMB2,620.9 million during the same period of 2018. The growth in live video revenues was contributed by the increase in quarterly paying users, as well as the increase in average revenues per paying user per quarter.

Value-added service revenues mainly include virtual gift revenues and membership subscription revenues. The total value-added service revenues were RMB948.4 million (US\$138.1 million) in the second quarter of 2019, an increase of 169% from RMB352.6 million during the same period of 2018. The year-over-year increase was primarily attributable to the continued growth of the virtual gift business on the Momo application driven by more paying scenarios introduced to enhance the social experience of Momo users, and the consolidation of Tantan’s membership subscription revenues for the whole second quarter of 2019, compared to the single month of June 2018 in the second quarter of 2018.

Mobile marketing revenues were RMB76.2 million (US\$11.1 million) in the second quarter of 2019, a decrease of 46% from RMB142.0 million during the same period of 2018. The decrease in mobile marketing revenues was due to the decrease in advertisement properties on Momo’s platform resulting from the suspension of certain user posting functions.

Mobile games revenues were RMB23.2 million (US\$3.4 million) in the second quarter of 2019, a decrease of 33% from RMB34.8 million in the second quarter of 2018. The decrease in mobile game revenues was mainly due to the continued decrease in quarterly paying users of mobile games.

Net revenues from Momo segment increased from RMB3,119.8 million in the second quarter of 2018 to RMB3,865.4 million (US\$563.1 million) in the second quarter of 2019, primarily driven by the significant increase in net revenues from live video service and value-added service. Net revenues from Tantan segment increased from RMB31.0 million in the second quarter of 2018 to RMB284.8 million (US\$41.5million) in the second quarter of 2019, which mainly included value-added service revenues. Tantan segment has been consolidated since June 2018.

Cost and expenses

Cost and expenses were RMB3,386.8 million (US\$493.3 million) in the second quarter of 2019, an increase of 44% from RMB2,356.8 million in the second quarter of 2018. The increase was primarily attributable to: (a) an increase in personnel related costs including share-based compensation expenses, especially the share-based compensation expenses of RMB323.7 million (US\$47.1 million) charged related to the options granted to Tantan's founders and the Company's rapidly expanding talent pool; (b) an increase in revenue sharing with broadcasters related to our live video service and virtual gift recipients; (c) an increase in marketing and promotional expenses to attract users and promote our live video services; (d) an increase in infrastructure-related spending, such as bandwidth costs and server depreciation costs, driven by more functions introduced on Momo's platform. The increase was partially offset by a decrease in production cost in connection with television program.

Non-GAAP cost and expenses (note 1) were RMB2,866.7 million (US\$417.6 million) in the second quarter of 2019, an increase of 30% from RMB2,210.9 million during the same period of 2018.

Other operating income

Other operating income was RMB161.9 million (US\$23.6 million) in the second quarter of 2019, a significant increase from RMB100.1 million during the second quarter of 2018. The increase was mainly due to more government incentives received in the second quarter of 2019.

Income from operations

Income from operations was RMB927.7 million (US\$135.1 million) in the second quarter of 2019, compared to RMB895.8 million during the same period of 2018. Income from operations of Momo segment was RMB1,354.4 million (US\$197.3 million) in the second quarter of 2019, increasing from RMB1,159.3 million in the second quarter of 2018. Loss from operations of Tantan segment was RMB431.4 million (US\$62.8 million) in the second quarter of 2019, compared to loss from operations of RMB97.8 million in the second quarter of 2018. Tantan segment has been consolidated since June 2018.

Non-GAAP income from operations (note 1) was RMB1,447.9 million (US\$210.9 million) in the second quarter of 2019, compared to RMB1,041.7 million during the same period of 2018. Non-GAAP income from operations of Momo segment was RMB1,488.5 million (US\$216.8 million) in the second quarter of 2019, increasing from RMB1,258.9 million in the second quarter of 2018. Non-GAAP loss from operations of Tantan segment was RMB47.9 million (US\$7.0 million) in the second quarter of 2019, compared to non-GAAP loss from operations of RMB51.5 million in the second quarter of 2018. Income tax expenses

Income tax expenses were RMB283.9 million (US\$41.4 million) in the second quarter of 2019, increasing from RMB198.6 million in the second quarter of 2018. The increase was mainly because we generated higher profit in the second quarter of 2019.

Net loss from Tantan segment was RMB423.2 million (US\$61.6 million) in the second quarter of 2019, compared to net loss of RMB94.8 million in the second quarter of 2018, which was mainly due to the share-based compensation expenses of RMB323.7 million (US\$47.1 million) charged related to the options granted to Tantan's founders. Tantan segment has been consolidated since June 2018.

Non-GAAP net income (note 1) was RMB1,241.8 million (US\$180.9 million) in the second quarter of 2019, compared to RMB891.0 million during the same period of 2018. Note 1: Non-GAAP measures

To supplement our consolidated financial statements presented in accordance with U.S. generally accepted accounting principles ("GAAP"), we use various non-GAAP financial measures that are adjusted from the most comparable GAAP results to exclude share-based compensation and amortization of intangible assets from business acquisitions, and tax impacts related to the amortization of intangible assets from business acquisitions.

Reconciliations of our non-GAAP financial measures to our U.S. GAAP financial measures are shown in tables at the end of this earnings release, which provide more details about the non-GAAP financial measures.

Our non-GAAP financial information is provided as additional information to help investors compare business trends among different reporting periods on a consistent basis and to enhance investors' overall understanding of the historical and current financial performance of our continuing operations and our prospects for the future. Our non-GAAP financial information should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to the GAAP results. In addition, our calculation of the non-GAAP financial measures may be different from the calculation used by other companies, and therefore comparability may be limited.

Our non-GAAP information (including non-GAAP cost and operating expenses, income (loss) from operations, net income (loss), net income attributable to Momo Inc., and diluted net income per ADS) is adjusted from the most comparable GAAP results to exclude share-based compensation, amortization of intangible assets from business acquisitions, and tax impacts related to the amortization of intangible assets from business acquisitions. A limitation of using these non-GAAP financial measures is that share-based compensation, amortization of intangible assets from business acquisitions and tax impacts related to the amortization of intangible assets from business acquisitions have been and will continue to be for the foreseeable future a significant recurring expense in our results of operations. We compensate for these limitations by providing reconciliations of our non-GAAP measures to our U.S. GAAP measures. Please see the reconciliation tables at the end of this earnings release.
